EDUCATION

IIT PATNA — **Patna, India**
Executive Programme in Generative AI for Leaders — **2025 - 2026**
- Capstone: 10xConsulting, a guided AI diagnostic consulting tool (see Applied AI Projects)

SWANSEA UNIVERSITY — **Swansea, UK**
MBA, Sustainability & Innovation | Outstanding Excellence Award (top academic performers in cohort) — **2024 - 2025**
- Capstone: live client diagnostic for a £500M UK automotive retail group; traced £41,468 a year of recoverable waste cost

IIIT BANGALORE — **Bangalore, India**
PG Diploma, Data Science (Specialisation in Data Engineering) — **2020 - 2021**
- Capstone: Real-time fraud detection on streaming transactions flagging KPI breaches with a readable reason

DIT UNIVERSITY — **Dehradun, India**
B.Tech., Electrical Engineering | GPA [7.68/10] — **2015 - 2019**

PROFESSIONAL EXPERIENCE

EASYREWARDZ — **Gurgaon, India**
Associate Strategy Consultant | Loyalty & CRM Strategy — **Jun 2022 - Aug 2024**
- Delivered **$8M programme-wide uplift** in 18 months across 7 markets, hitting **5-year targets in 2.5**, by leading a **digital loyalty transformation** from flat rewards to spend-based tiers on the in-house CRM platform, with benefits tracked monthly against plan
- Built a **market-launch playbook** (data validation, fraud screening, business case, pilot) adopted as the standard by other project teams, scaling **2 to 7 markets in 7 months**; led **6 analysts** across 3 time zones (agile), reporting to the **CEO and AVP of Strategy**
- Saved **$400K+ a year** in loyalty fraud (finance-validated), held within **2% of revenue**, via custom detection rules for bonus abuse and return loops; designed **ML risk scoring** on purchase and redemption history that flagged **10% more cases** for manual review
- Achieved **8.2x ROI** on top omni-channel campaigns ($49K spend) by segmenting customers on recency, frequency, spend and **CLV**, mapping their journeys and setting **80/20 A/B holdout groups** across cohorts to shift budget to the channels that worked best
- Improved **customer retention 6%** year on year for one client by ranking customers on value (80/20 by average spend) and moving high-value cohorts up loyalty tiers rather than offering one-off discounts; built the tier logic and tracked it monthly in **Power BI**
- Lifted Thailand loyalty engagement **5 points** in week 1 and capture from **20% to 60-70%** in 3-4 months by tracing a POS fault mis-tagging 80% of loyalty sales, presenting the **root cause** and proving the fix in a store pilot to win over a resistant CRM lead
- Linked personas for **10-12M active customers** to inventory so ageing stock reached likely buyers through automated, personalised daily campaigns with discounts sized per cohort; cut the persona run from **45 to 7 minutes** and compute cost **70% ($180K a year)**

CONVERGYTICS SOLUTIONS — **Bangalore, India**
Business Consultant (Fast-tracked for Promotion) | Dell Technologies, B2B Sales Analytics — **Dec 2021 - May 2022**
- Lifted **conversion 20%** on prioritised leads (**$1.2M quarterly impact**) by turning a **predictive lead-scoring model** into a capacity-capped A/B/C ranking in CRM and Power BI, showing reps why each lead ranked; adopted by sales and proven by an **A/B test**
- Saved **42 hours a week** across a 7-person team by automating manual SQL reporting **(ETL)** across several databases into scheduled stored procedures with built-in **data-quality checks** and standard KPI definitions, freeing time for the lead-ranking redesign

APCER LIFE SCIENCES — **Greater Noida, India**
MIS Business Analyst | Pharmaceutical Compliance — **Apr 2021 - Oct 2021**
- Cut errors and escalations **34%** and report time **83%** (tracked via error and time logs) by automating, in VBA, the consolidation of 25 client compliance reports a week that had been reconciled by hand, freeing analyst time for further **process automation**

MBA CAPSTONE, SWANSEA UNIVERSITY — **Swansea, UK**
External Strategy Consultant |Sinclair Group — **Jul 2025 - Sep 2025**
Advised the sustainability and P&L leaders of a £500M UK automotive retail group (26 sites, 900+ employees)
- Identified **£41,468 a year** of recoverable waste cost through **hypothesis-driven root-cause analysis** (operating data, site-manager interviews, five lenses) and restated carbon-reduction targets in P&L terms, so sustainability sat on the same P&L as sales
- Presented the **business case** to client leadership: **200% ROI in 12 months** at half capture on £15-20K cost (audits, tools, training), reinvesting savings in further emissions cuts; the client adopted a simplified P&L view, a site pilot and a governance roadmap

APPLIED AI PROJECTS (DIRECTED AN AI CODING AGENT; TESTED ON SYNTHETIC DATA)

- **10xConsulting:** Built a **multi-agent generative AI** diagnostic turning a non-consultant's business problem into a hypothesis-first root-cause view; wrote the PRD, directed the build (Next.js, Supabase), validated on **6 synthetic scenarios**, **449 tests** pass
- Added a **free revenue-leakage check**: users enter a few business figures and get a leakage estimate in **under 0.4 seconds**
- Built in **quality gates**: a reviewer agent checks two AI analysts' work, and AI summaries may quote only calculated figures

SKILLS & CERTIFICATIONS

- **Analytics and data:** Python (Pandas, scikit-learn), SQL, PySpark, Kafka, NoSQL, Power BI, VBA
- **AI and automation:** LangGraph, LangChain, RAG, Qdrant, Claude API, Claude Code, Supabase, n8n, Trigger.dev, Make.com
- **Certifications:** Power BI Data Analyst Associate (PL-300), renewed 4x; Adobe Experience Cloud: Customer Journey Analytics, Real-Time CDP, Journey Optimizer (Sep 2026); Adobe Tier-1 track AD0-E608/E614/E607 (Q4 2026)
- **Courses:** Agentic AI (DeepLearning.AI); Building with Claude API (Anthropic Academy); AI Governance (LinkedIn Learning)
